**CONTROL YOUR
AIR CONDITIONER
WITH SMARTPHONE FROM
ANYWHERE!**

AirPatrol
WiFi

AirPatrol WiFi connects to your **home WiFi network** and lets you control your **air conditioner** from **anywhere** using your **smartphone!**

It enables you to adjust the mode, room temperature, swing and fan speed of your air conditioner.

**SAVE
MONEY**

Cool your house only for the period when you're at home and turn it off when no one is around.

**MAKE LIFE
COMFORTABLE**

Never again arrive to a hot, humid home. Adjust the room temperature to perfection prior to arrival or set up automatic time cues.

**STAY
INFORMED**

With AirPatrol, it's easy to check the room temperature and humidity from anywhere. It even lets you know when temperature drops too low or rises too high.

**EASY TO
SET UP**

Installation takes just a few minutes and it works with all major air conditioners and smartphones.

**SAVE MONEY,
GAIN COMFORT!**
